I wish to thank you for the contribution of € 5000 received from Davide Bertelli which will help me in my work for the Tsunami Victims. I am taking care of their psychological and spiritual problems. I have started the construction of a centre to offer them possibility to recover from their psychological and spiritual trauma. I believe that at this point they need to be healed psychologically/spiritually.

Thank you for this contribution and any future help which you can offer us for the benefit of these our terribly affected brotheren.

May God bless you.
